

For Immediate Release:

Announcing New Career-Building Resources for Information Technology Professionals from Florida Tech University Online

World-Renowned Florida Tech offers a valuable resource portal for students looking to enhance their careers with a 100% online MSIT or MBA IT Management degree program

TAMPA, Fla., June 30, 2010 – Nationally ranked Florida Tech recently debuted its Web-based IT career-building resource pages geared toward IT professionals and students wishing to learn more about job opportunities, salary potential and the many advantages of earning a master's degree in information technology.

Now, current – and potential – students can access a range of informative articles to help them make decisions about advancing their careers and pursuing an MSIT or MBA IT Management degree. The articles include:

- [Choosing the Best Information Technology School](#) – Students can learn the right questions to ask when researching the top schools offering master's in IT programs.
- [2010 Information Technology Salary Information](#) – Find IT salaries by job title or by industry.
- [Pursuing an Information Technology Master's Degree Online](#) – Last year the Department of Education cited online learning as one of the fastest growing trends in educational uses of technology, attributing its popularity to the ability to provide “flexible access to content and instruction at any time, from any place.” This article takes a close look at what's involved when students and professionals study online for an advanced master's in IT degree.
- [IT Management Career Opportunities for MSIT and MBA ITM Graduates](#) – Where do students go once they've earned their degrees? This article highlights the many opportunities available for MSIT and MBA IT Management grads.
- [5 Steps to Landing the Top IT Management Jobs](#) – Today's job market is still tough to navigate even with an advanced degree. This article features helpful steps to landing the top IT management jobs, shares social media career-building strategies and provides entrepreneurial avenues to look for IT jobs.

The good news for students is that IT management careers continue to boom as the nation's economic recovery slowly rebounds. The Bureau of Labor Statistics' long-term outlook is that by 2018, careers in information technology will expand to more than two million new jobs, which means an MSIT or MBA IT Management degree – conveniently earned 100% online – is a smart career move.

Florida Tech's IT resource pages give students key tools regarding their career direction, as well as how to best leverage a master's degree in information technology in today's job environment.
